

PATENTS
Attorney Docket No. NMC-001.01

IN THE SPECIFICATION:

On page 7, ¶ 5 of the specification:

The online prospect list service, as well as the systems and methods for implementing the service, are also described in commonly-owned U.S Patent Application Serial No. 09/662,364, entitled Method and System for Storing Prospect Lists in a Database, filed concurrently herewith (Attorney Docket No. NMC-001.02), and commonly-owned U.S Patent Application Serial No. 09/662,429, entitled Method and System for Distributing Prospect Lists Over a Computer Network, filed concurrently herewith (Attorney Docket No. NMC-001.03). Each of the aforementioned patent applications is incorporated herein by reference.

On page 40, ¶ 6 of the specification:

The online prospect list service of the present invention can also optionally include a system for enabling a prospect to track and control information stored in a prospect list database concerning the prospect. Such a privacy control system is described in commonly-owned U.S Patent Application Serial No. 09/662,362, entitled Method and System for Enabling Privacy Control In a Prospect List Database, filed concurrently herewith (Attorney Docket No. NMC-002.01). The aforementioned patent application is incorporated herein by reference.
